Office, 287 Essex St., Salem, Mass.

Hardy American Rhododendrons, Andromedas,
Kalmias, Conifers, Azaleas and Choice and
Rare Specimen Trees, Shrubs and
Hardy Herbaceous Perennials

1911

SALEM NURSERIES

IS A BRANCH of my **Highlands Nursery** (over 100 acres) in the Carolina Mountains (3,800 feet elevation), where this stock is grown in large quantities in a climate and soil peculiarly adapted to producing well-formed absolutely hardy specimens of our choicest Native American Ornamentals.

RHODODENDRONS, AZALEAS, LEUCOTHOES, Kalmias, and Andromedas are grown by tens of thousands in single species and nowhere else can be found such a collection of the choicest **American Plants** which are the best for American gardens.

AT SALEM NURSERIES it is only possible to keep a limited stock of **specimens** for local New England or New York shipments. Prices at my **Highlands Nursery** are of course somewhat lower, owing to difference in freight charges.

A GENERAL COLLECTION of the ordinary varieties of nursery stock of the choicest selection is offered from Salem Branch **in addition to Hardy American Plants**. Dealing with the leading nurseries here and abroad, my facilities for supplying everything required for fine landscape planting are unexcelled.

HIGHLANDS NURSERY CATALOG, Beautifully Illustrated, is mailed on request. Over 600 species of the finest **Indigenous Ornamental and Flowering Plants** listed.

CAR LOT SHIPMENTS OF RHODODENDRONS, etc., are made direct from **Highlands Nursery** or from **Salem Nurseries** at special rates.

PRICES QUOTED IN THIS CATALOG are consistent with quality of stock offered, which is of the best, the object being to supply plants with heavy root system and that will give quick effect. **An ordinary grade** of lighter stock in many varieties can usually be supplied at reduced prices. Such stock however, cannot be recommended where finished or quick results are desired. Cheap stock is usually the most expensive.

PACKING CHARGES FREE for shipment by Freight or Express. Team delivery to North Shore or Boston points **at net cost**.

VISITORS ARE ALWAYS WELCOME at my Nurseries or office. Many of my customers have taken the trip to my Highlands Nursery in the Carolina Mountains during the blooming season of Rhododendrons and Azaleas. No such show can be seen elsewhere and it is an outing worth while.

YUCCA FLACCIDA.50	4.00	
GLAUCA.50	4.00	

Landscape Department

Visits are made for consultation and advice, to make surveys, designs and planting plans. Entire construction, planting and carrying out of Landscape work of all kinds undertaken, and charges will be found reasonably consistent with good workmanship and permanent results.

The Wild Garden. The basis of all the best landscape work of a permanent nature must be Native Plants and particularly where naturalistic effects are desired. If this fact is ignored tame and fleeting results will follow. I make a specialty of **wild gardening** and my long experience is here of greatest value. Every garden or estate has its own peculiar problems and a discussion of details may prove helpful in unexpected ways.

Address,

HARLAN P. KELSEY,

Landscape Architect,

Salem, Mass.
